### Keeping Pace With Progress

Are we keeping pace with progress?

Progress is an illusive thing. It may be seen, but so often it is not perceived. Take old age or a thief in the night, it creeps upon us unawares and suddenly one awakens to realization that some profound change has taken place; an evolution has occurred. We have not been aware of the fact because most of the apparent immobility, because its movement towards and past us has been gradual. We have seen it unconsciously but it has been too close to us for observation.

Yet despite this creeping slow approach the thing that we call progress moves with great rapidity, but it moves continually, inevitably, a step at a time but never halting; it is an onward march that never tires, never falters.

The only way to correctly gauge progress is in retrospect. Look back a few years only a decade or so, and the remarkable progress which civilization makes in the course of a brief span suddenly becomes apparent with startling clarity. Yet we do not see this extraordinary and far reaching changes in the making although they are going on all the time.

Turn over the leaves of the family album and immediately the truth of the assertion stares one in the face. What an extraordinary change in style of dress, in shape of houses, in fashion of hair dressing in a few years. It appears incredible that one really looks like that 20 or 15 or even ten years ago.

But progress does not mark a changing trend in dress alone. It involves every realm of activity within the ken of human experience. In the whole field of things natural and in the entire realm of even spiritual arena, a steady and unrelenting advance is being made.

Look back but twenty centuries and compare the modes of transportation of that time with the swift car on highway and the unobstructed line of travel. Contrast the crude telephone of a generation ago with the automatic and the radio of the present time. Appreciate the difference between the slow stagecoach of yesterday with the road gravelled highway along which we now travel.

A little reflection shows that everything with which we come in contact, everything we experience, everything we do, has been subject to a remarkable evolution as those things to which specific reference has been made. Not only has progress made radical changes in what we wear and how we travel in a few short years, but it has changed the very nature of the world in which we live and think in our movements, in our work, in our social life, in our worship and even in what we think.

In its sphere of activity, however, has this evolution been more marked in recent years as in the field of daily work, in the realm of business, in city and country. In methods of production, in modes of distribution, in processes of resolving changes have revolutionized and are continuing to revolutionize the state life of the world. These changes are pronounced and so rapid that they are apparent even to the most careless observer.

A writer in a popular magazine recently pointed out that such swift changes are being made in the conduct of business and commerce that heads of business houses are finding it increasingly difficult to secure young men competent to engage in commercial life without first being re-trained after they have left college. The almost daily application of new scientific discoveries in the field of business results in the changes being made, and because the course, though designed for the particular vocation he intends to follow, has not kept pace with the changes taking place in the practical arena.

This evolutionary process is going on in the whole industrial field, agriculture included, but as was stated at the outset it is not always so easy to perceive it because of its constancy and its proximity.

For this reason it is perhaps a wise thing, a necessary thing, in some-times pace and look back a little, make a few comparisons with the past and in the light of these contrasts a clearer perspective may be gained of what is happening from the past, and perhaps even an inkling may be secured of what may be expected in the future.

Only by doing this can we secure the necessary vision to enable us to keep pace with progress.

### Making Plants Luminous

German Gardener Demonstrates Experiment At Berlin Flower Show

It is stated that a German gardener has discovered a method of injecting phosphorus into plants, thus making them luminous at night. The experiment was demonstrated at the Berlin Flower Show, where a large number of cut, all shapes and sizes were injected, and that, as the luminous quality concentrated in the spines, they appeared to be dotted with brilliant points of light that radiated in the darkness like glow worms.

France expects much larger crop yields this year than last year, according to the latest estimates.

## USES PINKHAM MEDICINES

### Praises Vegetable Compound, Blood Pills

Birchdown, Quebec—"I live 13 miles from town on a farm, with all my home remedies, I am a big, healthy, energetic man, and I am able to do my work. I have never been ill since I have used your medicine."

### Why Anglo-Egyptian Negotiations Failed

Britain Could Not Meet Demand For Investigation Into Sudan

A white paper published yesterday that the breakdown in Anglo-Egyptian negotiations which terminated in London, May 8, was due to the impossibility of finding any formula which would satisfy the Egyptian demand for unrestricted investigation of the Egyptian nationals into the Sudan.

The document shows that little difficulty was experienced in negotiations on most points, although there were long discussions regarding the defence of the Sudan Canal.

At first the Egyptians demanded that the British troops should all be concentrated on the east bank of the canal. They subsequently agreed to the British stipulation for troops to the west of the canal but no agreement could be reached on the Sudan question.

### WAS RUN DOWN NOW WELL AGAIN

Breaks Previous Record

Aerial Photographic Expert "Shoots" Mount Rainier 270 Miles Away

Takes Pleasure In Recommending Dr. Williams' Pink Pills. The woman in the picture, Miss Stevens, is almost a century. Many a woman keeps on her household duties when she is feeling ready to drop. Her head aches, she is easily tired, she has no appetite and her health is poor. In a word she is anemic and has no blood. Dr. Williams' Pink Pills will cure her. These pills make the blood strong and give her the strength and energy to work, to do her household duties, to look after her children, to enjoy life.

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Investments Along the National Show Increase

Over Seventy-Four Million Involved in Establishing Industrial Plants

New industrial plants established along the lines of the Canadian National Railways, in 1928, involved a total capital investment by the industries of \$74,106,100, according to the annual report of William Phillips, manager of the Industrial Department of the system. This was an increase of \$886,300 over the previous year, when the expenditure was \$73,408,800. Additions to plants already existing represent an investment of \$33,361,000, an increase of \$8,762,200 over 1928. On the Grand Trunk Western lines of the system, the capital investment by industry for new plants and branches totalled \$11,729,000. While this was a decrease of \$7,500,400, there was an increase of \$2,227,000 in additions to plants, the total being \$11,983,000.

Canadian development from Atlantic to Pacific, Mr. Phillips indicates, was by many fields, involving such industries as newspaper, cold storage, warehousing, grain elevators, silk mills, canning plants, foundries, distilleries and mining industries. The most outstanding developments in Western Canada were in mining in Manitoba and in cold storage plants in British Columbia. The Hudson Bay Mining and Smelting Company, and the Canadian Northern Railway, Ltd., in Flin Flon, and Sheridan, expended \$10,000,000, while two cold storage plants, costing more than \$3,000,000, were established at New Westminster and Victoria, B.C. New elevators in the west represented an investment of \$45,000 and new oil warehouses, \$482,000.

Lesson Learned

Rockless Drivers Take Chances In Spite Of Daily Accidents

Does it pay to drive recklessly on the highway? The answer is simple. Nevertheless we need to be impressed now and again with the foolhardiness of throwing caution to the winds and performing menacing tactics such as cutting in on the road, ignoring danger signals and so on.

One time ago, a lady motorist driving on the Hamilton-St. Catharines highway, in Ontario, committed such a rash act that she cut in on another car and caused a heap of trouble. As a result of her error, three cars were damaged, four people injured and three lawsuits followed, culminating in a judgment of \$4,650 to be paid to seven persons in adjustment.

What a risk and price to pay for gaining a few car lengths! Was her time as precious as all that?

Canada's Trade With Bermuda

Large Quantity Of Fruits and Vegetables Imported Last Year

"The rise in exports of fruits and vegetables from Bermuda to Canada last year was from zero to 200,000 cases, one hundred thousand cases is the estimate for this year and three times that amount next year," according to Hon. S. S. Rogers, chairman of the Board of Agriculture, of Bermuda, who was a recent visitor. Mr. Spurling conferred with the chairman of the Canadian National at steamships in regard to the Canada-West Indies budget.

"The Canadian budget will be of great benefit to Bermuda," he said, "since it permits the free entry of vegetables into Canada during the winter months."

Wheat Elevators In Saskatchewan During 1929, the Saskatchewan Co-operative Wheat Producers Limited, built 22 elevators at country points throughout the province, according to a recent report. In addition, 25 old elevators were torn down and rebuilt. The Wheat Pool Construction Company, Limited, which carries out the building operations, also supervises the maintenance of 1,998 country elevators.

Maple For Many Purposes

The Topographical Survey, Department of the Interior, is an organization of the Dominion Government which is engaged in making maps for many purposes. So far as practicable standardized sheets are used, the scale varying according to the information available and the purpose for which the map is intended.

Mind's for Insect Bites.

Pedestrians who cross the streets recklessly in Berlin are to be prosecuted. After they come out of the hospital, probably.

### Artistic Booklet Issued By C.P.R.

Great Help To Travellers Planning An Overseas Holiday

A pleasing series of glimpses of "Those Magic Isles," embracing England, Wales, Scotland and Ireland, is contained in an artistic booklet under that title, just issued by the London offices of the Canadian Pacific Railway.

Replete with a wealth of artistic photographic illustrations, the publication forms one of the most complete guides to the Old Country which has appeared in recent times. All aspects of the life of each country are dealt with, both in picture and story, from the teeming hub of Empire itself along the leafy lanes and beauteous of England to the rugged shores of Wales and the mighty moors of Scotland, Ireland, both the Free States and the North, is also given considerable space, while rural scenes and graphic descriptions of popular resorts are not wanting.

To the traveller contemplating a holiday overseas it is an alluring foretaste of what is to come; to the returned voyager, it is a pleasing souvenir and an inducement to repeat the journey.

The "St. Lawrence Water Boulevard to Europe" is used yearly by many train travellers in travelling in Canadian Pacific Steamships, well worthy of the "Empress" and "Duchess" nomenclatures.

Was Tipped By Thackeray

Lord Baden-Powell Prizes Shilling Given Him When a Boy

Lord Baden-Powell, father of the Boy Scout Movement, who recently celebrated his 73rd birthday, still retains a shilling which Thackeray gave him when he was a boy. The occasion was a dinner party at B-P's home in which B-P made an unauthorized visit in his nightgown. Thackeray, who was one of the guests, alarmed by the probability of young Robert being caught, bribed him with the shilling to get back to bed while the guests were gone.

Forty-Three Anniversary

Forty-three years ago, May 23, 1887, the first transcontinental passenger train reached Vancouver on the Canadian Pacific Railway, leaving after May 24, 1887, for the return journey. This was 11 months after the arrival of the first through passenger train in Port Moody, the original terminus of the transcontinental line.

Manufacturing On Prairies

Prairie Province manufacture in 1928, had a value of \$340,000,000 according to C. E. Harvey, of Winnipeg, retiring chairman of the prairie division of the Canadian Manufacturers' Association.

Testing Pulverized Lignite

The Western Dominion Coalfields at Balfour, are experimenting with pulverized lignite coal. This commodity is being tested at present in the power plants in Winnipeg, Regina and Moose Jaw.

It isn't usually necessary that the mother of convention. It's the desire to have a trip and a good time.

Getting In Deep

"Now, boys," said the teacher, "always remember that you should never end a sentence with the word 'with.'"

"That is," he went on hurriedly, "because you have nothing else to end it with."

For the first time in its history of 500 years, the Guildhall, in London, has just been opened for the performance of marriages.

Cut Down Food Wastage

---by covering all perishable goods with Para-Sani Heavy Waxed Paper, Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-cut carton handy, in or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

## Local News

Mrs. A. G. Scott returned last Sat-  
 urday after a visit to Ontario.

Mrs. E. N. Rilla and Mrs. John  
 Hirsch, of Hussar, were visitors in  
 Bassano Wednesday.

The first Wednesday half holiday  
 of the summer was observed this  
 week, June 4.

Miss Norma Milroy, graduate of  
 General Hospital, Calgary, is home  
 on a visit.

Miss Mariel Simpson, came home  
 early this week for a few days' visit.  
 She is going to join the permanent  
 staff of the hospital at Edinburg.

The W. A. of the Anglican Church  
 will hold a white and badge party  
 in the Oddfellows' Hall Friday even-  
 ing of this week, June 5.

Dr. W. F. Keith is making a splid  
 did recovery from pneumonia. He  
 is still in the Bassano Hospital, but  
 in a few days will be able to return  
 home.

The annual picnic of the Knox  
 Sunday school will be held on Sat-  
 urday, June 28. Cars will leave the  
 church at 1:30 p.m. and proceed to  
 the picnic ground at Cochrane creek.

### HOSPITAL NEWS

A baby girl was born to Mr. and  
 Mrs. Joe Galanau, of Cassio, at  
 the Bassano Hospital on Wednesday,  
 June 4.

Mrs. C. Jorgensen, of Chatham,  
 is patient in the hospital here. She  
 underwent an operation.

Miss M. Devlin, of the Bassano  
 Hospital nursing staff, underwent an  
 operation for appendicitis on Tues-  
 day of this week.

### CARD OF THANKS

I wish to extend my sincere thanks  
 to all my friends for the great kind-  
 ness they showed during my recent  
 illness.

Mrs. E. Hinds

### Fair Trade

An Buskett performing in a  
 northern town put a woman into a  
 box from which there was no appar-  
 ent outlet, and shut the lid. When  
 he opened it again there was nothing  
 inside but a couple of rabbits.

After the performance a Scot-  
 sman went to the Buskett and asked him  
 if he could perform the same trick  
 if (the Scotsmen's) wife were to  
 get into the box.  
 "Why, yes," answered the Buskett  
 but, "But are you anxious to get rid  
 of your wife?"  
 "Well," answered the Scot, "it's  
 no me much that, but wee Will-  
 got me to promise him two rabbits  
 for his birthday."

### ON GROWING OLD

(by John Macfadyen)

Be with me Beauty, for the fire is  
 dying.  
 My dog and I are old, too old for  
 roving.  
 Man, whose young passion sets the  
 spirit flying.  
 Is soon too lame to march, too cool  
 for loving.  
 I take the book and gather to the fire  
 Turning old yellow leaves, minute by  
 minute.  
 The clock ticks to my heart; a  
 withered wire  
 Moves a thin sheet of music in the  
 quiet.  
 I cannot sail your seas, I cannot  
 wander  
 Your corralled, not your hill-fand  
 nor your valleys.  
 Ever again, nor share the battle  
 yonder.  
 Where the young knight the broken  
 equidron rallies.  
 Only stay quiet while my mind re-  
 members  
 The beauty of fire from the beauty  
 of rubies.  
 Beauty, have pity, for the strong  
 have power.  
 The rich their wealth, the beautiful  
 their grace.  
 Summer of man its daylight and its  
 flower  
 Springtime of man all April in a face.  
 Only, so in the jostling in the Strand,  
 Whether a mob thrush or huters or  
 is loud  
 The beggar with his saucer in his  
 hand  
 Asks only a penny from the passing  
 crowd.  
 So, from this glittering world with  
 all its fashion  
 Its fire and play of men, its stir, its  
 march,  
 Let me have wisdom, Beauty, wis-  
 dom and passion.  
 Bread to the soul, rain where the  
 summers parch.  
 Give me but these, and though the  
 darkness close  
 Even the night will blossom as the  
 rose.

## 1932 WORLD'S GRAIN SHOW NOTES

Inquiry has been made at head-  
 quarters of the World's Grain Show,  
 Regina, as to whether or not the  
 number of exhibitors from any one  
 province or state is restricted. There  
 is no restriction whatever to the  
 number of entries in any of the com-  
 petitive classes except that no ex-  
 hibitor will not be allowed to make  
 more than one entry in any one class.

Major I. A. Jones, editor, econom-  
 ic supplement of the "Morning  
 Post," London, England, visited the  
 offices of the World's Grain Show  
 last week for the purpose of obtain-  
 ing first-hand information of this  
 great Canadian undertaking. He ex-  
 pressed his interest in passing this  
 information on to the people of  
 Great Britain. This is Major Jones' first  
 trip to Canada and he was greatly  
 surprised and impressed with the  
 wonderful development and pos-  
 sibilities of this country from coast  
 to coast.

R. F. Timney, of the Dominion Ex-  
 perimental Farm at Charlottetown,  
 P. E. I., is radio address on the  
 World's Grain Show, advised the  
 growing of grain for exhibit this  
 year. "By growing a crop in 1930,"  
 he said, "we have an opportunity of  
 testing the purity of variety. If the  
 grain cannot be made pure by  
 rearing (that is pulling out off-type  
 and foreign varieties) the entire lot  
 may be discarded and new seed re-  
 ceived for the 1931 crop." Continuing  
 Mr. Timney said, "You will remember  
 that there is no restriction re-  
 garding the year in which the ex-  
 hibit is grown. If, therefore, we  
 should produce crops of excellent  
 quality in 1930, it might be well to  
 save sufficient for your entry for  
 1931 might prove to be a poor crop  
 year, and we would thus be shut out  
 altogether."

### Never Forget Him

Teacher: "Use the word 'fortune' in  
 a sentence."  
 A fortune going to ask me to re-  
 lie on a front board for today."

### Summer Estuary

Roll on, thou deep and dark blue sea  
 Keep rolling on for all of me  
 On you I cannot waste a glance  
 While bathing beauties round me  
 prance.

### FOR SALE Milk Cows

## PROMOTE YOUR OWN PROSPERITY

Every time a dollar, instead of a quarter is re-  
 turned to the business channels of Alberta by  
 the purchase of an article made on Alberta  
 soil, manufacturing is stimulated and greater  
 capital becomes available. These two factors  
 make more labor necessary in our factories.

75c of every \$1.00

spent on imported  
 merchandise

## LEAVES ALBERTA

Albertans will find many, if not all of their  
 needs manufactured right here on Alberta soil,  
 indeed they will find them equal in price and  
 quality when compared with importations.  
 Insist on Made-in-Alberta Products, the direct  
 road to better business, busier factories, more  
 work and larger payrolls.

A full line at reduced prices -- Boots, Shoes, Caps, Socks, Underwear, Socks, Shirts, Overalls, etc.

## Local News

Bassano was represented at the provincial musical festival held in Calgary last week by Helen Travis and Jean Double, in junior piano solo class, obtaining the marks of 80 and 73 respectively. Florence Playfair and Phyllis Plummer in the intermediate piano class were awarded 84 marks, two points below the winners.

Mr. and Mrs. L. V. Blaine were visiting in Calgary this week.

## Irrigation Extension To The Cemetery Is Now Completed

Town Engineer Frank Mead and his staff have been busy during the past week in constructing the irrigation system at the cemetery. The work is now completed, and he expects to have the water running by Friday or Saturday this week.

To irrigate the cemetery it was necessary to install a pump and 500 feet of pipe. The lines there may now be watered conveniently and at less expense than by hauling water in tanks as was done last year.

## Board Of Trade Entertain Calgary Board Visitors

Twenty-four members of the Calgary Board of Trade, travelling by motor bus, visited Bassano Thursday, June 5, and were guests of the Bassano Board of Trade at a luncheon meeting in the Imperial Hotel.

The visitors were on a friendly tour to a number of towns east of Calgary, including Bassano, Brooks, Hussar, Gleichen, Strathmore, Milo, and others. They passed through here on their way east Wednesday evening, stopping at Brooks over night.

The meeting in the Imperial Hotel at one o'clock p.m. was attended by a large crowd of Bassano Board of Trade members. After lunch the gathering was addressed by a number of visitors, including "ex-mayor" W. E. Osbourne, Mr. Brockington, city solicitor, Mr. Freeze, and Mr. Ross. H. O. Brodie, Board of Trade President, C. H. McMillan, and W. McLaws also addressed the gathering. Expressions of goodwill and friendship were exchanged, and hope expressed for a continuance of friendly co-operation between the Calgary and Bassano boards of trade.

## Duchess News

DUCHESS, June 5. Ross McDonald returned to Manhattan, Kan. Sunday, after a short visit with relatives and friends. Mrs. McDonald and daughters Jean and Lois will remain for a longer visit.

W. A. Brodie of Bassano, was calling on friends here Sunday.

Duchess and Rosemary played ball Sunday, Rosemary winning the game.

Mrs. S. H. Brown, who has been very ill, is some better at this writing.

Mrs. Bob Dunsmore and baby, of Comstock, were Sunday with Mrs. G. Dunsmore and family.

Mr. Spicer motored to Crookston Sunday.

Mr. Horn, of the Royal Bank, and Mrs. Horn, are back again from Edmonton.

The Rev. Mr. Turner, at Brooks, was calling on the folks of Duchess Monday.

Too Big to Lose  
Billy Brown was dreaming of baseball. He wasn't a bit interested in elephants, which was the subject of the lesson to which he ought to have been listening. The teacher saw this and pointed upon him.

"Billy, where are elephants found?" she demanded, sternly.

Billy was staggered for a moment, but then he rallied to the occasion.

"Please, man," he stammered, "elephants are so big that they're hardly ever lost."

Baroness Dido Tuo Nou  
Dickey: "My dad is an Elk, a Lion and a Moose."  
Mickey: "What does it cost to see him?"
